AFL: Attention! From now on, Let's make the world perfect!

Dear readers,

Welcome to the inaugural issue of "Attention! From now on, Let's make the world better!" This magazine represents the voices, ideas, and passions of ten Applied Foreign Languages students from Taiwan Tech, each bringing a unique perspective to some of the most pressing and thought-provoking topics of our time.

In this issue, we've categorized our articles into two sections: Modern Life in Focus and Puzzles to Perfect. The first section explores different aspects of our daily lives, touching on cultural exchange, traffic safety, exercise habits, dietary struggles, classroom technology, and emerging social trends. These articles reveal the challenges and changes shaping modern life.

The second section, Puzzles to Perfect, takes a more problem-solving approach, tackling societal issues that call for deeper understanding and collective actions. From Taiwan's readiness for a super-aged society to artists' struggles with low wages, eco-friendly practices in schools, and the need to rediscover and appreciate one's own culture through new perspectives in traveling, these articles inspire us to think critically and act purposefully.

Before you dive in, here's a little secret: the name of our magazine, *Attention! From now on, Let's make the world better!* holds a hidden message. Can you spot it? Look closely—"AFL" lies at the heart of the name, reflecting our identity as Applied Foreign Languages students.

We hope you enjoy this issue as much as we enjoyed creating it. Let these stories be an invitation to reflect, engage, and, last but not least, strive to make the world better, one idea at a time.

Happy reading!
